Quarterly Financial Report For the quarter ended June 30, 2023

# Statement outlining results, risks and significant changes in operations, personnel, and program

#### Introduction

This quarterly financial report has been prepared by management as required by <u>Section 65.1 of the Financial Administration Act (FAA)</u> and in the form and manner prescribed by the Treasury Board in accordance with the special purpose financial reporting framework described in the <u>Directive on Accounting Standards, GC 4400 Departmental Quarterly Financial Reports</u>. It should be read in conjunction with the <u>Main Estimates</u> and <u>Supplementary Estimates</u>. This quarterly report has not been subject to an external audit or review.

A summary description of the Canada Energy Regulator (CER)'s core responsibilities can be found in <u>Part II of</u> the Main Estimates.

The CER receives its funding through annual Parliamentary authorities. Nearly all expenditures are subsequently recovered from the companies regulated by the CER and the funds are deposited to the Consolidated Revenue Fund of the Government of Canada.

#### **Basis of Presentation**

The quarterly financial report has been prepared by management using an expenditure basis of accounting. The accompanying Statement of Authorities includes the CER's spending authorities granted by Parliament, and those used by the CER, consistent with the Main Estimates and Supplementary Estimates for the 2023-24 fiscal year. This quarterly report has been prepared using a special purpose financial reporting framework designed to meet financial information needs with respect to the use of spending authorities.

The authority of Parliament is required before moneys can be spent by the Government. Approvals are given in the form of annually approved limits through appropriation acts, or through legislation in the form of statutory spending authority for specific purposes.

When Parliament is dissolved for the purposes of a general election, section 30 of the Financial Administration Act authorizes the Governor General, under certain conditions, to issue a special warrant authorizing the Government to withdraw funds from the Consolidated Revenue Fund. A special warrant is deemed to be an appropriation for the fiscal year in which it is issued.

Régie de l'énergie du Canada 517, Dixième Avenue S.-O. bureau 210 Calgary (Alberta) T2R 0A8

#### Quarterly Financial Report For the quarter ended June 30, 2023

The CER uses the full accrual method of accounting to prepare and present its annual departmental financial statements that are part of the departmental results reporting process. However, the spending authorities voted by Parliament remain on an expenditure basis.

#### Highlights of the Fiscal Quarter and the Fiscal Year to Date Results

This section highlights any significant items that affected the year-to-date results and/or contributed to the net change in resources available for the year and actual expenditures. It should be read in conjunction with the <a href="Statement of Budgetary Authorities">Statement of Budgetary Authorities</a> and the <a href="Departmental Budgetary Expenditures by Standard Object">Departmental Budgetary Expenditures by Standard Object</a>, which can be found at the end of this report.

#### **Budgetary authorities analysis**

As reflected in the <u>Statement of Budgetary Authorities</u> and the <u>Departmental Budgetary Expenditures by</u> <u>Standard Object</u>, the department's total authority available for use in the fiscal year ending March 31, 2024 is \$113.42 million, as compared to \$100.27 million in the fiscal year ending March 31, 2023. The increase of \$13.15 million is due to:

- an increase of \$31.65 million related to Budget 2022 funding for regulatory renewal activities including Indigenous engagement and net-zero modelling as well as funding to implement the Impact Assessment Act;
- a decrease of \$1.09 million related to the employee benefit plan;
- a decrease of \$3.16 million related to compensation allocations as a result of adjustments made to terms and conditions of service or employment in the federal public administration;
- a decrease of \$4.27 million related to a Budget 2020 initiative to improve the CER's ability to interpret and make data available digitally to Canadians; and
- a decrease of \$9.98 million related to a Budget 2018 initiative to transition to new impact assessment and regulatory processes.

#### **Expenditures analysis**

As reflected in the <u>Departmental Budgetary Expenditures by Standard Object</u>, the department's authority used in the quarter ended June 30, 2023, is \$26.51 million, as compared to \$24.13 million as at the quarter ended June 30, 2022. The increase of \$2.38 million is due to:

Régie de l'énergie du Canada 517, Dixième Avenue S.-O. bureau 210 Calgary (Alberta) T2R 0A8

#### Quarterly Financial Report For the quarter ended June 30, 2023

- an increase of \$4.05 million related to Budget 2022 funding for regulatory renewal activities including Indigenous engagement and net-zero modelling as well as funding to implement the Impact Assessment Act;
- an increase of \$0.45 million related to the grants and contributions;
- an increase of \$0.33 million related to the employee benefit plan;
- a decrease of \$0.35 million related to compensation allocations as a result of adjustments made to terms and conditions of service or employment in the federal public administration;
- a decrease of \$0.75 million related to a Budget 2020 initiative to improve the CER's ability to interpret and make data available digitally to Canadians; and
- a decrease of \$1.35 million related to a Budget 2018 initiative to transition to new impact assessment and regulatory processes.

#### **Risks and Uncertainties**

The CER's work is shaped by emerging energy trends and by the proactive consideration of safety, environmental, societal, and economic trends – that may influence both the volume of adjudicative matters that come before the CER in any given year, and our ability to carry out responsibilities that represent the everchanging interests and concerns of Canadians. Due to the nature of its mandate, the CER's expenditures are influenced by planned and unplanned events (internal and external) that create uncertainty in expenditure and resource pressures.

In 2021, the CER implemented an Enterprise Risk Management (ERM) Framework as the next step in maturing the organization's processes for managing risks in the context of the current governance model and new Strategic Plan. ERM is a holistic approach to identify, assess, prepare for, and manage organization-wide strategic risks. By providing a framework to identify enterprise level risk events, ERM enables the CER's Board of Directors and senior management to strategically manage events that might stand in the way of organizational success as well as identifying mitigations to these risks.
