

PUBLIC NOTICE

**Trans Mountain Pipeline ULC, as General Partner of Trans Mountain Pipeline L.P.
Trans Mountain Expansion Project
Notice of Proposed Detailed Route
Pursuant to Paragraph 201(1)(b) of the Canadian Energy Regulator Act**

IN THE MATTER OF the Canadian Energy Regulator Act (CER Act) and the Regulations made thereunder;

IN THE MATTER OF Certificate of Public Convenience and Necessity OC-065 (Certificate OC-065) approving the general route of the Trans Mountain Expansion Project;

IN THE MATTER OF the 9 October 2020 application by Trans Mountain Pipeline ULC, on behalf of Trans Mountain Pipeline L.P., (Trans Mountain), to vary Certificate OC-065 to accommodate an alternate 18.36 kilometre route in the Coldwater Valley, British Columbia (Variance Application), and regarding which public hearing MH-032-2020 is being held;

AND IN THE MATTER OF an application by Trans Mountain respecting the determination and approval of the detailed route for the segment of the Trans Mountain Expansion Project in the Coldwater Valley, approximately 18.36 kilometres in length, as shown on the attached Route Map.

If you anticipate that lands that you own or have an interest or right in may be adversely affected by the proposed detailed route for the segment of the Trans Mountain Expansion Project in the Coldwater Valley, you may oppose the proposed detailed route by filing a written statement of opposition with the Canada Energy Regulator (CER) within thirty (30) days of the publication of this notice. Your written statement of opposition must set out both the nature of your interest in the lands and the grounds for your opposition to the detailed route. The Commission of the CER (Commission) will only accept statements of opposition by those with an interest in lands that raise concerns regarding the detailed route of the segment of the Trans Mountain Expansion Project in the Coldwater Valley.

Where a written statement that meets the requirements of the CER Act is filed with the CER within thirty (30) days of the publication of this notice, the Commission shall forthwith order, subject to certain exceptions as noted below, that a public hearing be held with respect to any grounds of opposition set out in the statement, in relation to any section or part of the pipeline affected by the concerns disclosed in the written statement.

The Commission is not required to give any notice, hold any hearing or take any other action with respect to any written statement of opposition filed with the CER and may at any time disregard any such written statement if the person who filed the statement files a notice of withdrawal, or if it

appears to the Commission that the statement is frivolous, vexatious or is not made in good faith.

If the Commission determines it is appropriate to hold a public hearing it will fix a suitable format, time and place for the hearing and will publish a notice of the hearing in at least one issue of a publication, if any, in general circulation within the area in which the lands acquired or proposed to be acquired are situated. The Commission will also send a notice of the public hearing to each person who has filed a written statement of opposition with the CER.

The public hearing will be conducted in a manner that the Commission considers convenient for persons who filed a written statement of opposition and, given the COVID-19 pandemic, may be held in writing and/or virtually.

If the Commission determines a public hearing is required, it will permit each person who filed a written statement of opposition that met the requirements of the CER Act to make representations, and may allow any other interested persons to make representations before it as the Commission deems appropriate. The Commission will take into account all written statements of opposition that have met the requirements of the CER Act and all representations made during the public hearing in determining the best possible route of the pipeline, and the most appropriate methods and timing of construction for the Trans Mountain Expansion Project. The Commission may impose in any approval such terms and conditions as it considers appropriate. Where the Commission has held a public hearing in respect of any section or part of the Trans Mountain Expansion Project and has approved or refused to approve the plan, profile and book of reference respecting that section or part, it will forward a copy of its decision and reasons to each person who made representations to the Commission during the public hearing.

The Commission may fix such amount as it deems reasonable in respect of the interim or final costs reasonably incurred by any person who makes representations to the Commission during such a public hearing, and the amount so fixed will be paid forthwith to the person by Trans Mountain.

Copies of the plan, profile and book of reference for the detailed route of the Trans Mountain

Expansion Project may be obtained by calling 1-866-514-6700 or emailing info@transmountain.com. You may also view it online at <https://www.transmountain.com/detailed-route>.

A Statement of Opposition to the detailed route form is available online at <https://www.cer-rec.gc.ca/en/consultation-engagement/land-matters-guide/land-matters-advisory-service.html>.

A copy of any such written statement of opposition to this detailed route must be filed with the CER. The CER's preferred method of filing is online through its e-filing tool (<https://apps.cer-rec.gc.ca/etile/ElectronicDocumentSubmission.aspx?GoCTemplateCulture=en-CA>), which provides step-by-step instructions. If a registrant is unable to file their form through the e-filing tool, they may file it (in PDF format) by email at secretary@cer-rec.gc.ca.

Any written statement of opposition should also be sent to:
**Trans Mountain Expansion Project
Suite 2700, 300 5th Ave SW
Calgary Alberta T2P 5J2
Attention: Alain Parise, Director, Land
Fax: 403-514-6401
Email: TMEP_Land@transmountain.com**

PLEASE NOTE: Public hearing MH-032-2020 will consider Trans Mountain's Variance Application (to realign the previously approved pipeline corridor in the Coldwater Valley area of British Columbia). Trans Mountain was directed to publish and serve a Notice of Hearing for the Variance Application and the Commission held a participant registration period. You may have also received that Notice of Hearing and/or registered to participate.

While the decisions to be made on the Variance Application and this detailed route process are distinct, the issues may overlap. For the Variance Application, the Commission will determine whether the proposed corridor realignment is in the public interest. For the detailed route, the Commission will determine whether the exact location of the pipeline on the tracts of lands at issue is the best possible detailed route, as well as whether the proposed methods and timing of constructing the pipeline are the most appropriate. Given this potential for overlap, the Commission may consider both the variance and detailed route matters through the same proceeding.

Regardless of whether you registered to participate in the MH-032-2020 public hearing for the Variance Application, you must file a statement of opposition as set out in this notice, to the extent that you meet the criteria for doing so, and to the extent that you oppose the detailed route, the methods of construction, and/or the timing of construction. These site-specific issues will only be considered where statements of opposition are filed.

If you have registered to participate in the MH-032-2020 hearing for the Variance Application, you may complete the Statement of Opposition to the Detailed Route form in full. However, to the extent that the submissions you made in registering to participate in the MH-032-2020 public hearing address the requirements of Parts C and D of the Statement of Opposition to the Detailed Route form, you may simply provide a cross-reference (i.e., the Filing ID) to your MH-032-2020 hearing registration form.

If you have not registered to participate in the MH-032-2020 hearing for the Variance Application, you must complete the Statement of Opposition to the Detailed Route form in full.

The CER's Alternative Dispute Resolution (ADR) service is available to you. An ADR process could take the form of a meeting between the person filing the statement of opposition and Trans Mountain, which may be facilitated by trained CER staff or by another neutral third party. The facilitator would assist the filer and Trans Mountain to develop a process that may help to resolve outstanding issues. For more information about ADR options, please contact an ADR Specialist at the CER toll-free at 1-800-899-1265.

Should you have any questions concerning this notice, the proposed detailed route, or the CER's detailed route procedures, please contact Trans Mountain at 1-866-454-4717 or info@transmountain.com and a Trans Mountain representative will return your call. You may also contact a CER Process Advisor at 1-800-899-1265 or TMK.ProcessHelp@cer-rec.gc.ca.

NICOLA VALLEY NEWS

Coquihalla receives new signs for trucks

Morgan Hampton
LOCAL JOURNALISM INITIATIVE
REPORTER

New traffic signs were installed on the Coquihalla Highway earlier this week.

The 'No Trucks Left Lane' signs were installed on Larson Hill to notify commercial drivers that they can no longer travel in the third left lane.

"The 'No Trucks Left Lane' signs help improve the safety and reliability of the highway by keeping a path open for plows, emergency crews and other traffic, if trucks spin out," reads a statement from the Ministry of Transportation and Infrastructure.

The pilot program launched in 2018 with signs originally installed in the northbound direction of the Snowshed Hill.

At the time, the Ministry of Transportation and Infrastructure released its explanation for installing the signs, and how they expected they would improve travelling conditions.

"On Phase 1, between Hope and Merritt, the snow is heavy and wet, creating tricky road conditions for trucks, even with minor accumulations on the road surface," reads a statement on the Ministry's website.

"Over the past couple of winter seasons, commercial vehicles on the Coquihalla have been spinning out in climbing sections more frequently during storms. In fact, last winter, 39 of 35 extended closures on the Coquihalla...involved commercial vehicles. At times, this meant commercial vehicles were blocking the highway until they could either be

towed away, or equipped with chains, which they should have already had on their vehicles. What makes these closures even worse is that, because the Coquihalla is a divided highway, restricted by roadside barriers and unable to turn around. So, snow continues to fall, unglowed, until the blockage is cleared."

According to the Ministry the number of closures involving commercial vehicles this past winter season had dropped to three, with two of those on Larson Hill.

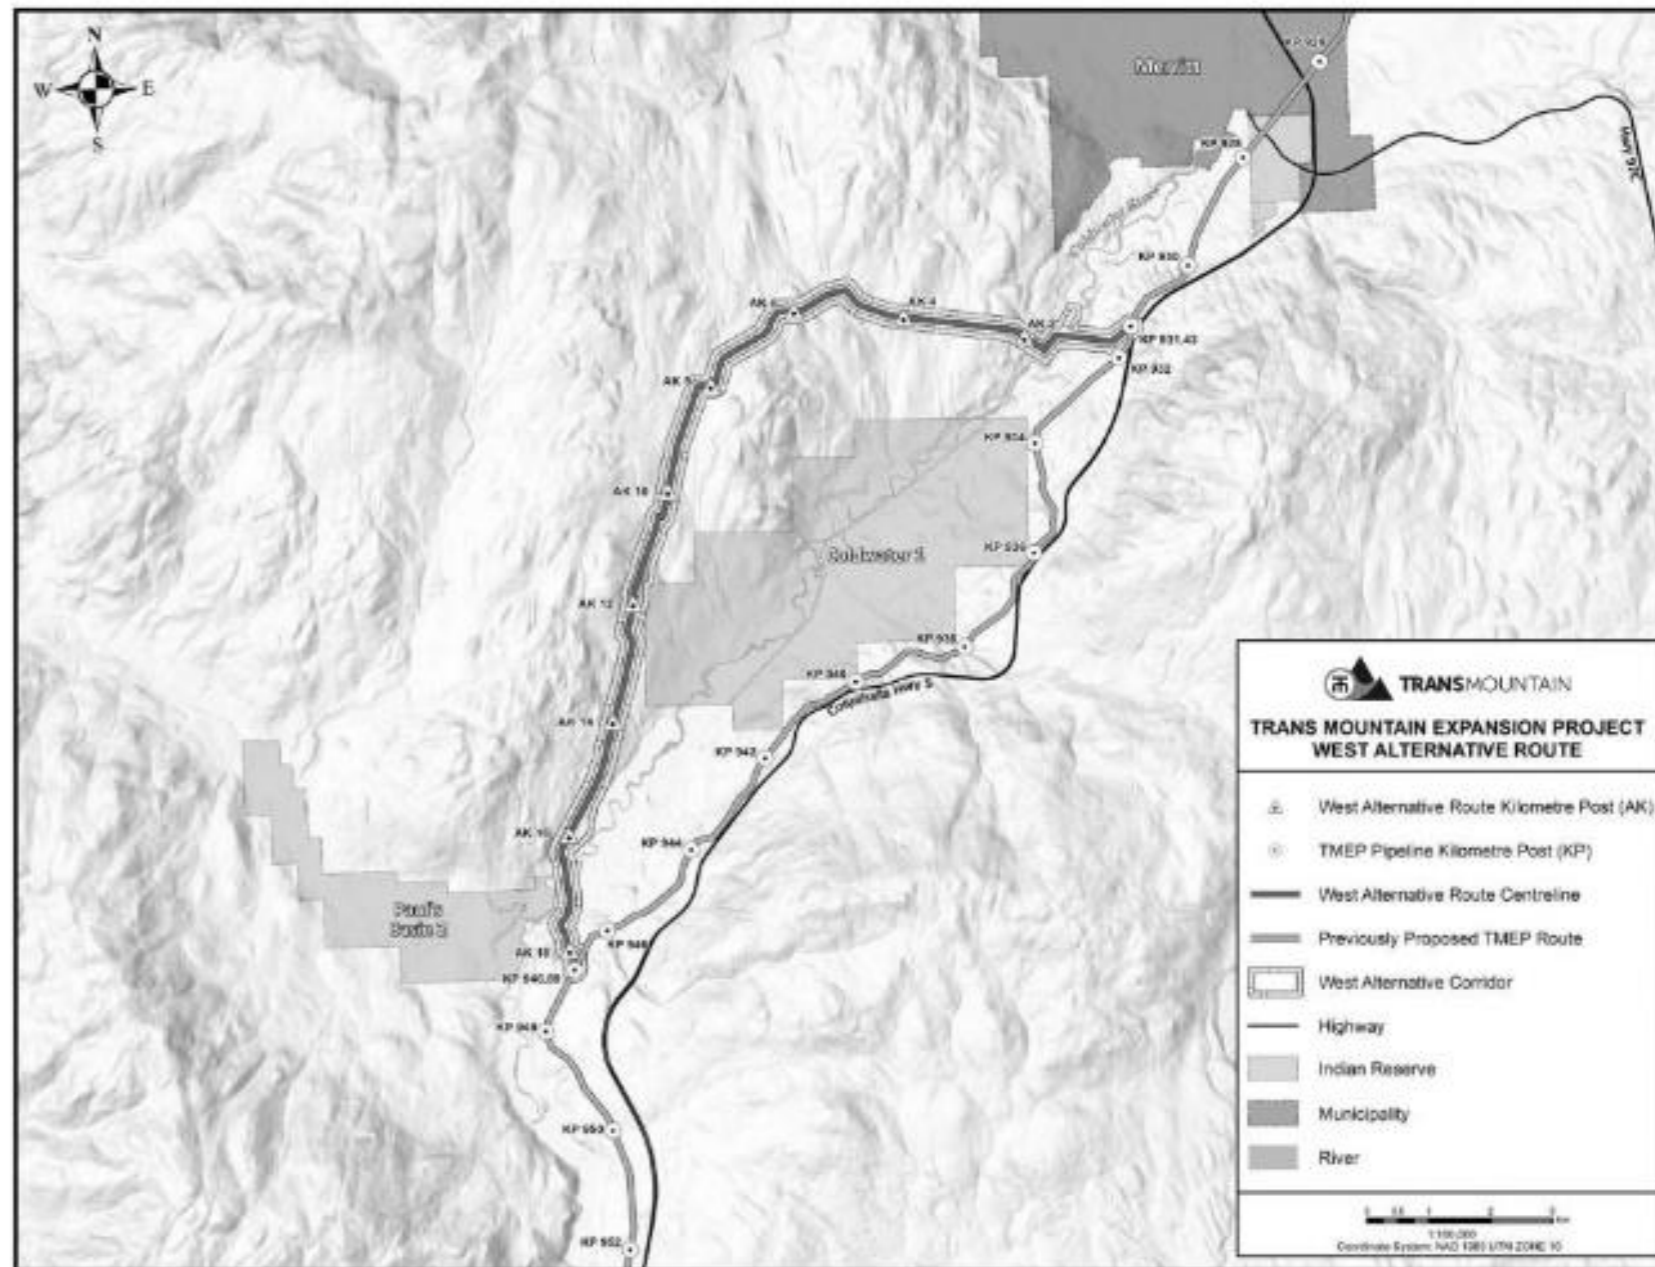

"Based on the positive results, we decided to extend the pilot to two more locations on the Coquihalla: southbound in the Larson Hill area, as well as southbound at the Inks Lake Hill leaving Kamloops," continues the statement from the Ministry.

If commercial vehicles encounter spun out trucks in the right and centre lane, they must stop as they would if all three lanes were blocked, with

no use of the far-left lane permitted. At this time there are no plans to install additional signs at other locations along the highway.

AVIS PUBLIC

Régie de l'énergie du Canada Canada Energy Regulator

Trans Mountain Pipeline ULC, à titre de partenaire général de Trans Mountain Pipeline L.P.
Projet d'expansion de Trans Mountain
Avis relatif au tracé détaillé proposé
en vertu de l'alinéa 201(1)(b) de la Loi sur la Régie canadienne de l'énergie

EN QUOI CONCERNE le *Loi sur la Régie canadienne de l'énergie* (la *Loi*) sur la Régie et les règlements pertinents.

ET EN QUOI CONCERNE le Certificat de commercialité et de reconnaissance OC-065 (le *Certificat OC65*) et notamment le tracé général du *Projet d'expansion de Trans Mountain*.

ET EN QUOI CONCERNE la demande faite le 9 octobre 2020 par Trans Mountain Pipeline ULC, pour le compte de Trans Mountain Pipeline L.P. (« *Trans Mountain* ») dans le but de modifier le Certificat OC65 pour prévoir un tracé de remplacement de 18,36 km dans la vallée Colvener, en Colombie-Britannique (la *demande de modification*), et si l'ajout de la partie l'audience publique MH-032-2020 est tenu.

ET EN QUOI CONCERNE une demande faite par Trans Mountain à l'égard de la détermination et de l'approbation du tracé détaillé prévu pour le segment du *Projet d'expansion de Trans Mountain* dans la vallée Colvener, dont la longueur est d'environ 18,36 km, comme le montre la carte du tracé ci-dessous.

Si vous croyez que le tracé détaillé prévu pour le segment du *Projet d'expansion de Trans Mountain* dans la vallée Colvener pourrait avoir des répercussions néfastes sur des terres dont vous êtes propriétaire ou dont requête vous intéressez un intérêt ou un droit, vous pouvez déposer une déclaration d'opposition écrite auprès de la Régie canadienne de l'énergie (la *Régie*) dans les trente (30) jours suivant la publication du présent avis pour vous opposer au tracé détaillé proposé. Dans votre déclaration d'opposition écrite, vous devez préciser l'objet de votre intérêt dans les terres que les modifications de la Loi sur la Régie canadienne de l'énergie (la *Loi*) et les règlements pertinents affectent, ainsi que les motifs de votre opposition au tracé détaillé.

La Commission de la Régie (« *Commission* ») n'accepte que les déclarations d'opposition pertinentes par les personnes qui ont un intérêt dans les terres et qui font part de leurs préoccupations à l'égard du tracé détaillé du segment du *Projet d'expansion de Trans Mountain* dans la vallée Colvener.

En cas de dépôt, auprès de la Régie, d'une déclaration d'opposition écrite conforme aux exigences de la Loi sur la Régie dans les trente (30) jours suivant la publication du présent avis, la Commission entendra, sans délai, sous réserve de certaines exceptions indiquées ci-dessous, la tenue d'une audience publique concernant les motifs d'opposition mentionnés dans la déclaration, relativement à toute section ou partie de l'itinéraire à l'égard de laquelle des préoccupations sont soulevées dans la déclaration écrite.

La Commission n'est pas tenue de donner d'avis, ni de tenir d'audience, ni d'entreprendre de démarches à l'égard de toute déclaration de modification à l'égard de toute déclaration d'opposition écrite déposée auprès de la Régie et se réserve le droit, à tout moment, de rejeter toute déclaration écrite si la personne ayant déposé la déclaration dépose un avis de retrait ou si la Commission juge la déclaration fautive, vaine ou de mauvaise foi.

Si la Commission estime qu'il convient de tenir une audience publique, elle se tiendra les modalités, ainsi qu'une date et un lieu convenables, et publiées par la suite en avis d'audience dans au moins un numéro d'un journal, et il y a lieu à grand tirage dans la région où se trouvent les terres auxquelles l'avis se propose d'appliquer. La Commission fera également parvenir un avis d'audience publique à chacune des personnes qui aura déposé une déclaration d'opposition écrite auprès de la Régie.

L'audience publique se tiendra de la façon qui, selon la Commission, convient aux personnes qui ont déposé une déclaration d'opposition écrite et, compte tenu de la pandémie de COVID-19, pourrait être tenue par accès virtuel.

Si la Commission détermine qu'une audience publique est requise, elle permettra à chacune des personnes qui auront déposé une déclaration d'opposition écrite conforme aux exigences de la Loi sur la Régie de présenter des observations. La Commission se réserve par ailleurs le droit de permettre à toute autre personne intéressée de présenter des observations devant elle comme la Commission le juge indiqué. La Commission fera connaître de l'ensemble des déclarations d'opposition écrites conformes aux exigences de la Loi sur la Régie et des observations présentées au cours de l'audience publique afin de déterminer, d'une part, le meilleur tracé possible pour l'itinéraire et, d'autre part, les modalités et le calendrier les plus appropriés à la construction du *Projet d'expansion de Trans Mountain*. La Commission peut aussi avoir l'approbation des conditions qu'elle juge indiquées. La Commission tiendra compte de toutes observations d'opposition ou de motifs d'opposition du plus, profit et tiers de même nature à une section ou partie du *Projet d'expansion de Trans Mountain* rendus après l'audience publique à chacune des personnes qui lui y aura présenté des observations.

La Commission peut faire la somme qu'elle juge raisonnable relativement aux frais pertinents et déductibles encourus par la présentation d'observations au cours d'une audience publique, ou en représant sans verse sans délai à la personne par Trans Mountain.

Il vous est possible de consulter des copies des plans, profit et tiers de même nature au tracé détaillé du *Projet d'expansion de Trans Mountain* en appelant le 1-866-514-6700 ou par courrier électronique à info@transmountain.com. Vous pouvez également les consulter en ligne à l'adresse www.transmountain.com/la-taille-roule.

Une déclaration d'opposition au tracé détaillé peut être consultée en ligne à l'adresse www.cer-rec.gc.ca/fr/consultation-mobilisation/qualite-lesonnes-anglophones-francophones/service-consultatif-questions-fonctionnaires.html.

Une copie de la déclaration d'opposition à ce tracé détaillé doit être déposée auprès de la Régie, la Régie priant que les documents soient déposés par l'entremise de son outil de dépôt en ligne files.ca.gov/electronic. Toute déclaration d'opposition déposée par l'entremise de son outil de dépôt en ligne doit être déposée au format PDF par courriel à sacretaire@cer-rec.gc.ca.

Les déclarations d'opposition écrites devraient aussi être envoyées à l'adresse suivante:
Projet d'expansion de Trans Mountain
 Salle 2700, 200 5th Avenue SW
 Calgary, Alberta T2P 5A2
 À l'attention d'Alain Patis, Directeur, Terrains
 Téléphone : 403-514-6701
 Courriel : TMEP_Land@transmountain.com

REMARQUE : L'audience publique MH-032-2020 portera sur la demande de modification du *Projet d'expansion de Trans Mountain* à l'égard du tracé détaillé proposé dans la région de la vallée Colvener en Colombie-Britannique. Trans Mountain a été autorisé de publier et de tenir un avis d'audience public à la demande de modification et la Commission a tenu une période d'inscription des participants. Il est possible de déposer une déclaration d'opposition écrite que vous vous soyez inscrit pour participer à l'audience.

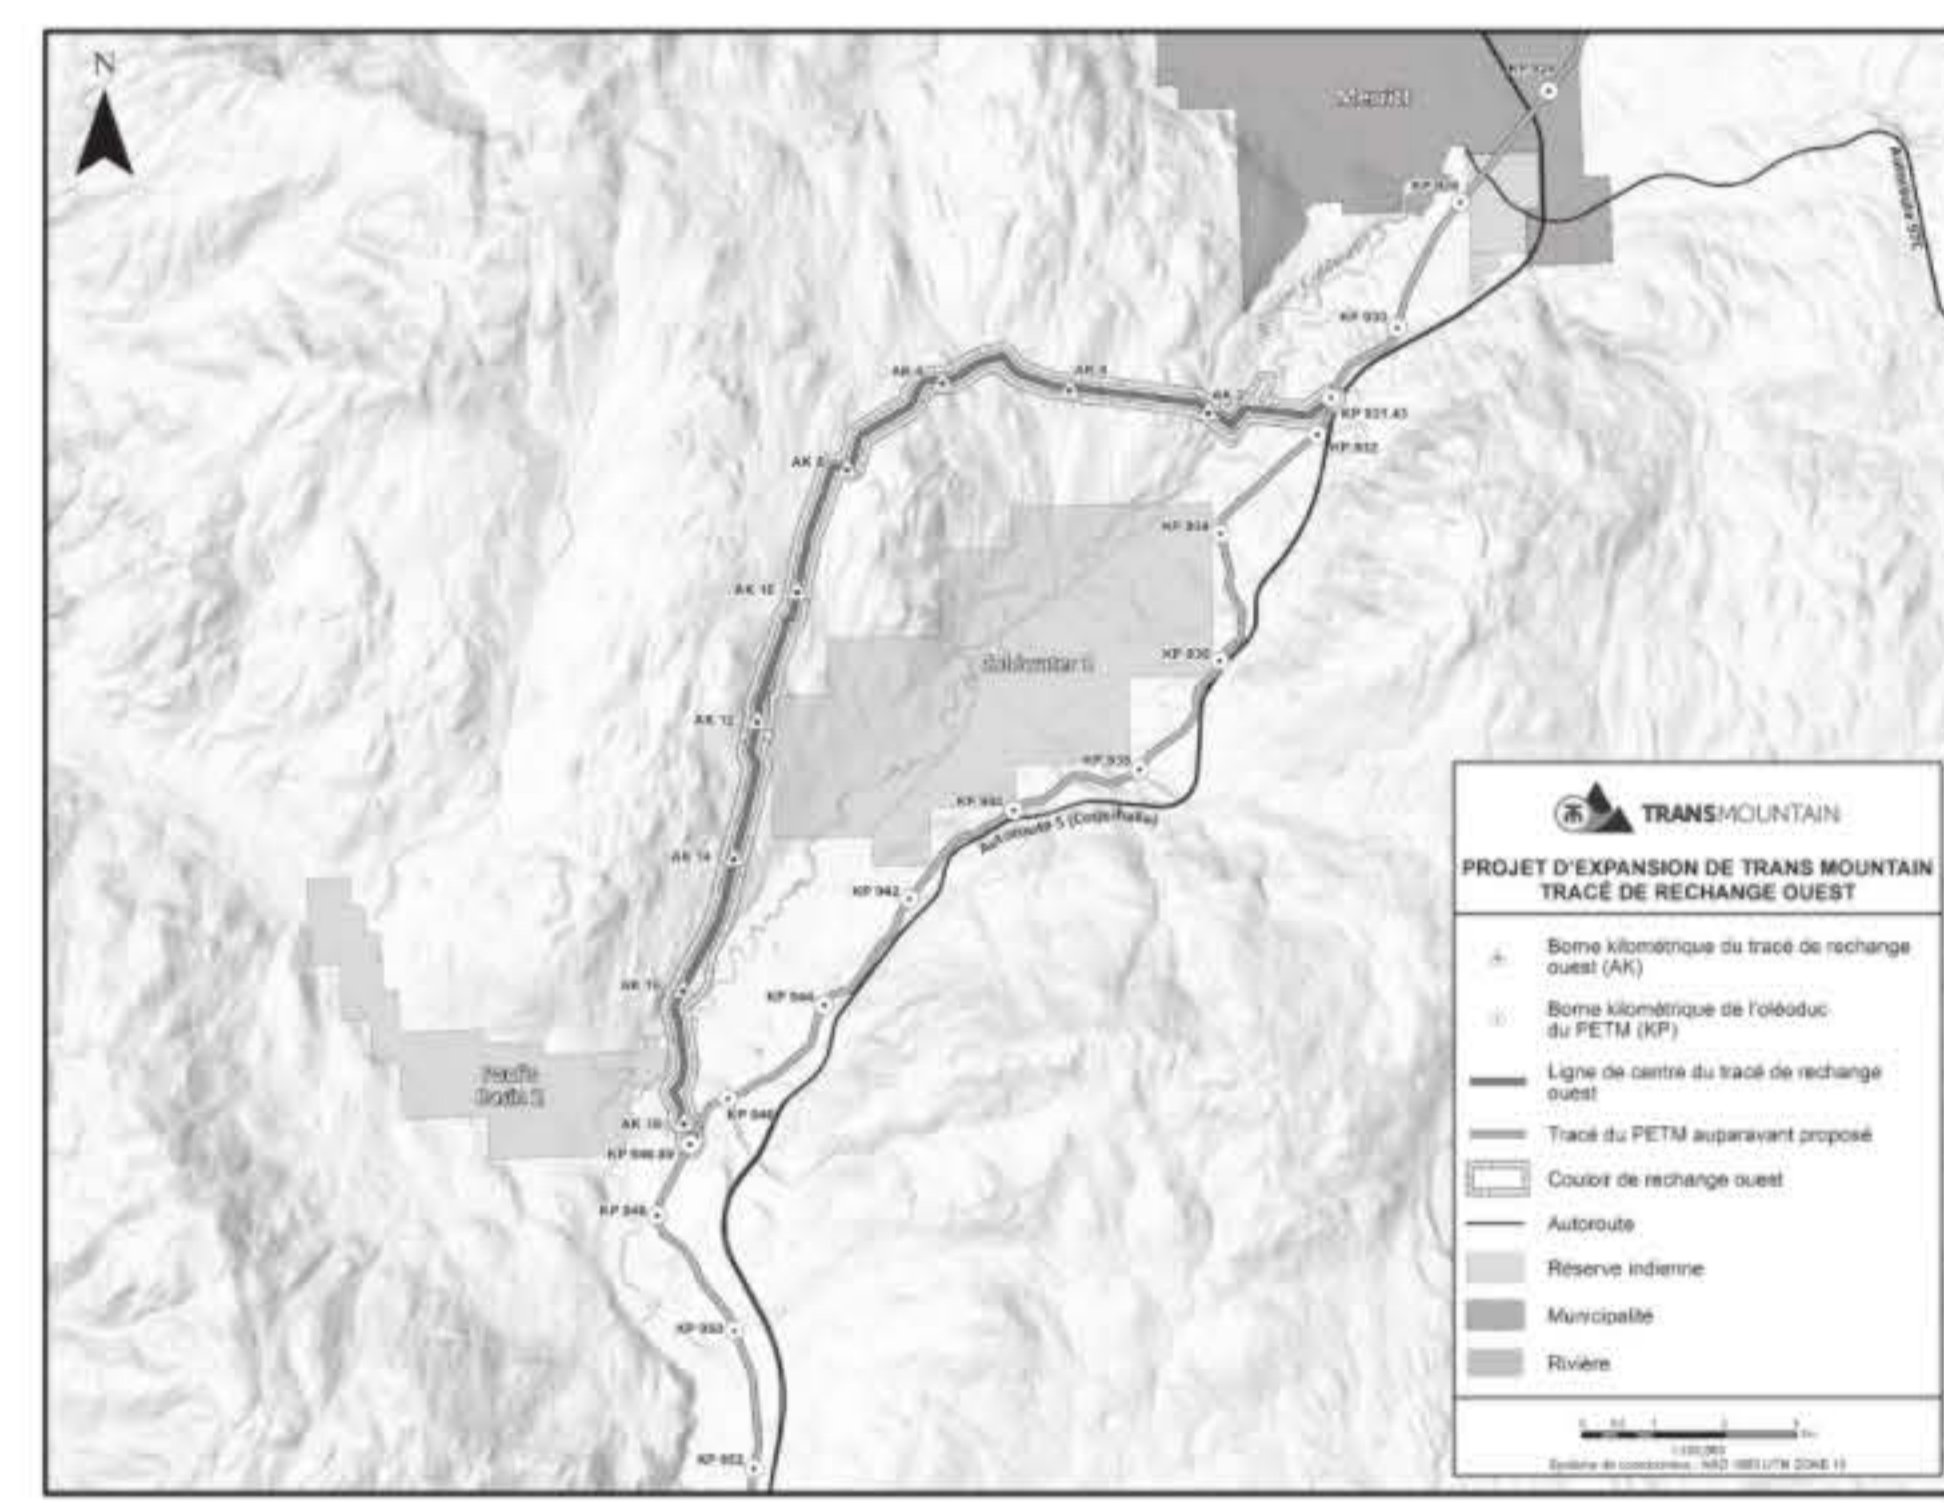

Si vous avez des questions au sujet du présent avis, du tracé détaillé proposé ou des procédures mises en place par la Régie quant au tracé détaillé, veuillez communiquer avec Trans Mountain au 1-866-464-4717 ou à info@transmountain.com et un représentant de Trans Mountain vous répondra. Vous pouvez aussi communiquer avec un conseiller ou un consultant sur les processus de la Régie au 1-800-959-1260, ou en envoyant à TMEP_Audio-rec@cer.gc.ca.

Vous pouvez vous prévaloir du mode substitué de résolution des conflits (MRC). La MRC peut prendre la forme d'un arbitrage entre la personne qui dépose la déclaration d'opposition et Trans Mountain, qui pourrait être autorisé par les membres du personnel de la Régie tenus en la matière ou encore par une tierce partie impartiale. L'arbitrage autorisé est disponible à Trans Mountain à la discrétion de la personne qui dépose la déclaration d'opposition et Trans Mountain, qui pourrait permettre de régler les différends en question. Pour de plus amples renseignements sur le MRC, veuillez communiquer avec un spécialiste du MRC à la Régie au numéro sans frais 1-800-959-1260.

Si vous avez des questions au sujet du présent avis, du tracé détaillé proposé ou des procédures mises en place par la Régie quant au tracé détaillé, veuillez communiquer avec Trans Mountain au 1-866-464-4717 ou à info@transmountain.com et un représentant de Trans Mountain vous répondra. Vous pouvez aussi communiquer avec un conseiller ou un consultant sur les processus de la Régie au 1-800-959-1260, ou en envoyant à TMEP_Audio-rec@cer.gc.ca.

Trans Mountain Expansion Project - Notice of Proposed Detailed Route

Notices and Announcements

PUBLIC NOTICE
Trans Mountain Expansion Project - Notice of Proposed Detailed Route

PUBLIC NOTICE
2021 NGTL System Expansion Project - Notice of Proposed Detailed Route Pursuant to paragraph 201(1)(b) of the Canadian Energy Regulator Act

PUBLIC NOTICE

Trans Mountain Pipeline ULC, as General Partner of Trans Mountain Pipeline L.P.
Trans Mountain Expansion Project
Notice of Proposed Detailed Route
Pursuant to Paragraph 201(1)(b) of the Canadian Energy Regulator Act

IN THE MATTER OF the Canadian Energy Regulator Act (CER Act) and the Regulations made thereunder;

IN THE MATTER OF Certificate of Public Convenience and Necessity OC-065 (Certificate OC-065) approving the general route of the Trans Mountain Expansion Project;

IN THE MATTER OF the 9 October 2020 application by Trans Mountain Pipeline ULC, on behalf of Trans Mountain Pipeline L.P., (Trans Mountain), to vary Certificate OC-065 to accommodate an alternate 18.36 kilometre route in the Coldwater Valley, British Columbia (Variance Application), and regarding which public hearing MH-032-2020 is being held;

AND IN THE MATTER OF an application by Trans Mountain respecting the determination and approval of the detailed route for the segment of the Trans Mountain Expansion Project in the Coldwater Valley, approximately 18.36 kilometres in length, as shown on the attached Route Map.

If you anticipate that lands that you own or have an interest or right in may be adversely affected by the proposed detailed route for the segment of the Trans Mountain Expansion Project in the Coldwater Valley, you may oppose the proposed detailed route by filing a written statement of opposition with the Canada Energy Regulator (CER) within thirty (30) days of the publication of this notice. Your written statement of opposition must set out both the nature of your interest in the lands and the grounds for your opposition to the detailed route.

The Commission of the CER (Commission) will only accept statements of opposition by those with an interest in lands that raise concerns regarding the detailed route of the segment of the Trans Mountain Expansion Project in the Coldwater Valley.

Where a written statement that meets the requirements of the CER Act is filed with the CER within thirty (30) days of the publication of this notice, the Commission shall forthwith order, subject to certain exceptions as noted below, that a public hearing be held with respect to any grounds of opposition set out in the statement, in relation to any section or part of the pipeline affected by the concerns disclosed in the written statement.

The Commission is not required to give any notice, hold any hearing or take any other action with respect to any written statement of opposition filed with the CER and may at any time disregard any such written statement if the person who filed

the statement files a notice of withdrawal, or if it appears to the Commission that the statement is frivolous, vexatious or is not made in good faith.

If the Commission determines it is appropriate to hold a public hearing, it will fix a suitable format, time and place for the hearing and will publish a notice of the hearing in at least one issue of a publication, if any, in general circulation within the area in which the lands acquired or proposed to be acquired are situated. The Commission will also send a notice of the public hearing to each person who has filed a written statement of opposition with the CER.

The public hearing will be conducted in a manner that the Commission considers convenient for persons who filed a written statement of opposition and, given the COVID-19 pandemic, may be held in writing and/or virtually.

If the Commission determines a public hearing is required, it will permit each person who filed a written statement of opposition that met the requirements of the CER Act to make representations, and may allow any other interested persons to make representations before it as the Commission deems appropriate. The Commission will take into account all written statements of opposition that have met the requirements of the CER Act and all representations made during the public hearing in determining the best possible route of the detailed route, and the most appropriate methods and timing of construction for the Trans Mountain Expansion Project. The Commission may impose in any approval such terms and conditions as it considers appropriate. Where the Commission has held a public hearing in respect of any section or part of the Trans Mountain Expansion Project and has approved or refused to approve the plan, profile and book of reference respecting that section or part, it will forward a copy of its decision and reasons to each person who made representations to the Commission during the public hearing.

The Commission may fix such amount as it deems reasonable in respect of the interim or final costs reasonably incurred by any person who makes representations to the Commission during such a public hearing, and the amount so fixed will be paid forthwith by the person by Trans Mountain.

Copies of the plan, profile and book of reference for the detailed route of the Trans Mountain Expansion Project may be obtained by calling 1-866-514-6700 or emailing info@transmountain.com. You may also view it online at <https://www.transmountain.com/detailed-route>.

A Statement of Opposition to the detailed route form is available online at <https://www.cer-rec.gc.ca/en/consultation-engagement/land-matters-guide/land-matters-advisory-service.html>.

A copy of any such written statement of opposition to this detailed route must be filed with the CER. The CER's preferred method of filing is online through its e-filing tool (https://apps.cer-rec.gc.ca/efile/ElectronicDocumentSubmission.aspx?GoC_TemplateCulture=en_CA), which provides step-by-step instructions. If a registrant is unable to file their form through the e-filing tool, they may file it (in PDF format) by email at secretary@cer-rec.gc.ca.

Any written statement of opposition should also be sent to:
Trans Mountain Expansion Project
Suite 2700, 300 5th Ave SW
Calgary Alberta T2P 5J2
Attention: Alain Parisé, Director, Land
Fax: 403-514-6401
Email: TMEP_Land@transmountain.com

PLEASE NOTE: Public hearing MH-032-2020 will consider Trans Mountain's Variance Application (to realign the previously approved pipeline corridor in the Coldwater Valley area of British Columbia). Trans Mountain was directed to publish and serve a Notice of Hearing for the Variance Application and the Commission held a participant registration period. You may have also received that Notice of Hearing and/or registered to participate.

While the decisions to be made on the Variance Application and this detailed route process are distinct, the issues may overlap. For the Variance Application, the Commission will determine whether the proposed corridor realignment is in the public interest. For the detailed route, the Commission will determine whether the exact location of the pipeline on the tracts of lands at issue is the best possible detailed route, as well as whether the proposed methods and timing of constructing the pipeline are the most appropriate. Given this potential for overlap,

the Commission **may** consider both the variance and detailed route matters through the same proceeding.

Regardless of whether you registered to participate in the MH-032-2020 public hearing for the Variance Application, you **must** file a statement of opposition as set out in this notice, to the extent that you meet the criteria for doing so, and to the extent that you oppose the detailed route, the methods of construction, and/or the timing of construction. These site-specific issues will only be considered where statements of opposition are filed.

If you **have** registered to participate in the MH-032-2020 hearing for the Variance Application, you may complete the Statement of Opposition to the Detailed Route form in full. However, to the extent that the submissions you made in registering to participate in the MH-032-2020 public hearing address the requirements of Parts C and D of the Statement of Opposition to the Detailed Route form, you may simply provide a cross-reference (i.e., the Filing ID) to your MH-032-2020 hearing registration form.

If you **have not** registered to participate in the MH-032-2020 hearing for the Variance Application, you **must** complete the Statement of Opposition to the Detailed Route form in full.

The CER's Alternative Dispute Resolution (ADR) service is available to you. An ADR process could take the form of a meeting between the person filing the statement of opposition and Trans Mountain, which may be facilitated by trained CER staff or by another neutral third party. The facilitator would assist the filer and Trans Mountain to develop a process that may help to resolve outstanding issues. For more information about ADR options, please contact an ADR Specialist at the CER toll-free at 1-800-899-1265.

Should you have any questions concerning this notice, the proposed detailed route, or the CER's detailed route procedures, please contact Trans Mountain at 1-866-454-4717 or info@transmountain.com and a Trans Mountain representative will return your call. You may also contact a CER Process Advisor at 1-800-899-1265 or TMX.ProcessHelp@cer-rec.gc.ca.

PUBLIC NOTICE

Notice of Proposed Detailed Route for the Trans Mountain Pipeline Expansion Project

The Canada Energy Regulator (Regulator) is working to approve the general route of the Project. If you anticipate that your lands may be adversely affected by the proposed detailed route, you may oppose the proposed detailed route by filing a written statement of opposition with the Regulator within thirty (30) days of the publication of this notice.

PUBLIC NOTICE

**Trans Mountain Pipeline ULC, as General Partner of Trans Mountain Pipeline L.P.
Trans Mountain Expansion Project
Notice of Proposed Detailed Route
Pursuant to Paragraph 201(1)(b) of the Canadian Energy Regulator Act**

IN THE MATTER OF the *Canadian Energy Regulator Act* (CER Act) and the Regulations made thereunder;

IN THE MATTER OF Certificate of Public Convenience and Necessity OC-065 (Certificate OC-065) approving the general route of the Trans Mountain Expansion Project;

IN THE MATTER OF the 9 October 2020 application by Trans Mountain Pipeline ULC, on behalf of Trans Mountain Pipeline L.P., (Trans Mountain), to vary Certificate OC-065 to accommodate an alternate 18.36 kilometre route in the Coldwater Valley, British Columbia (Variance Application), and regarding which public hearing MH-032-2020 is being held;

AND IN THE MATTER OF an application by Trans Mountain respecting the determination and approval of the detailed route for the segment of the Trans Mountain Expansion Project in the Coldwater Valley, approximately 18.36 kilometres in length, as shown on the attached Route Map.

If you anticipate that lands that you own or have an interest or right in may be adversely affected by the proposed detailed route for the segment of the Trans Mountain Expansion Project in the Coldwater Valley, you may oppose the proposed detailed route by filing a written statement of opposition with the Canada Energy Regulator (CER) within thirty (30) days of the publication of this notice. Your written statement of opposition must set out both the nature of your interest in the lands and the grounds for your opposition to the detailed route. The Commission of the CER (Commission) will only accept statements of opposition by those with an interest in lands that raise concerns regarding the detailed route of the segment of the Trans Mountain Expansion Project in the Coldwater Valley.

Where a written statement that meets the requirements of the CER Act is filed with the CER within thirty (30) days of the publication of this notice, the Commission shall forthwith order, subject to certain exceptions as noted below, that a public hearing be held with respect to any grounds of opposition set out in the statement, in relation to any section or part of the pipeline affected by the concerns disclosed in the written statement.

The Commission is not required to give any notice, hold any hearing or take any other action with respect to any written statement of opposition filed with the CER and may at any time disregard any such written statement if the person who filed

the statement files a notice of withdrawal, or if it appears to the Commission that the statement is frivolous, vexatious or is not made in good faith.

If the Commission determines it is appropriate to hold a public hearing, it will fix a suitable format, time and place for the hearing and will publish a notice of the hearing in at least one issue of a publication, if any, in general circulation within the area in which the lands acquired or proposed to be acquired are situated. The Commission will also send a notice of the public hearing to each person who has filed a written statement of opposition with the CER.

The public hearing will be conducted in a manner that the Commission considers convenient for persons who filed a written statement of opposition and, given the COVID-19 pandemic, may be held in writing and/or virtually.

If the Commission determines a public hearing is required, it will permit each person who filed a written statement of opposition that met the requirements of the CER Act to make representations, and may allow any other interested persons to make representations before it as the Commission deems appropriate. The Commission will take into account all written statements of opposition that have met the requirements of the CER Act and all representations made during the public hearing in determining the best possible route of the pipeline, and the most appropriate methods and timing of construction for the Trans Mountain Expansion Project. The Commission may impose in any approval such terms and conditions as it considers appropriate. Where the Commission has held a public hearing in respect of any section or part of the Trans Mountain Expansion Project and has approved or refused to approve the plan, profile and book of reference respecting that section or part, it will forward a copy of its decision and reasons to each person who made representations to the Commission during the public hearing.

The Commission may fix such amount as it deems reasonable in respect of the interim or final costs reasonably incurred by any person who makes representations to the Commission during such a public hearing, and the amount so fixed will be paid forthwith to the person by Trans Mountain.

Copies of the plan, profile and book of reference for the detailed route of the Trans Mountain Expansion Project may be obtained by calling 1-866-514-6700 or emailing info@transmountain.com. You may also view it online at <https://www.transmountain.com/detailed-route>.

A Statement of Opposition to the detailed route form is available online at <https://www.cer-rec.gc.ca/en/consultation-engagement/land-matters-guide/land-matters-advisory-service.html>.

A copy of any such written statement of opposition to this detailed route must be filed with the CER. The CER's preferred method of filing is online through its e-filing tool (https://apps.cer-rec.gc.ca/efile/ElectronicDocumentSubmission.aspx?GoC_TemplateCulture=en-CA), which provides step-by-step instructions. If a registrant is unable to file their form through the e-filing tool, they may file it (in PDF format) by email at secretary@cer-rec.gc.ca.

Any written statement of opposition should also be sent to:
**Trans Mountain Expansion Project
Suite 2700, 300 5th Ave SW
Calgary Alberta T2P 5J2
Attention: Alain Parisé, Director, Land
Fax: 403-514-6401
Email: TMEP_Land@transmountain.com**

PLEASE NOTE: Public hearing MH-032-2020 will consider Trans Mountain's Variance Application (to realign the previously approved pipeline corridor in the Coldwater Valley area of British Columbia). Trans Mountain was directed to publish and serve a Notice of Hearing for the Variance Application and the Commission held a participant registration period. You may have also received that Notice of Hearing and/or registered to participate.

While the decisions to be made on the Variance Application and this detailed route process are distinct, the issues may overlap. For the Variance Application, the Commission will determine whether the proposed corridor realignment is in the public interest. For the detailed route, the Commission will determine whether the exact location of the pipeline on the tracts of lands at issue is the best possible detailed route, as well as whether the proposed methods and timing of constructing the pipeline are the most appropriate. Given this potential for overlap,

the Commission **may** consider both the variance and detailed route matters through the same proceeding.

Regardless of whether you registered to participate in the MH-032-2020 public hearing for the Variance Application, you **must** file a statement of opposition as set out in this notice, to the extent that you meet the criteria for doing so, and to the extent that you oppose the detailed route, the methods of construction, and/or the timing of construction. These site-specific issues will only be considered where statements of opposition are filed.

If you **have** registered to participate in the MH-032-2020 hearing for the Variance Application, you may complete the Statement of Opposition to the Detailed Route form in full. However, to the extent that the submissions you made in registering to participate in the MH-032-2020 public hearing address the requirements of Parts C and D of the Statement of Opposition to the Detailed Route form, you may simply provide a cross-reference (i.e., the Filing ID) to your MH-032-2020 hearing registration form.

If you **have not** registered to participate in the MH-032-2020 hearing for the Variance Application, you **must** complete the Statement of Opposition to the Detailed Route form in full.

The CER's Alternative Dispute Resolution (ADR) service is available to you. An ADR process could take the form of a meeting between the person filing the statement of opposition and Trans Mountain, which may be facilitated by trained CER staff or by another neutral third party. The facilitator would assist the filer and Trans Mountain to develop a process that may help to resolve outstanding issues. For more information about ADR options, please contact an ADR Specialist at the CER toll-free at 1-800-899-1265.

Should you have any questions concerning this notice, the proposed detailed route, or the CER's detailed route procedures, please contact Trans Mountain at 1-866-454-4717 or info@transmountain.com and a Trans Mountain representative will return your call. You may also contact a CER Process Advisor at 1-800-899-1265 or TMX.ProcessHelp@cer-rec.gc.ca.
