BACKGROUND

On 21 June 2019, the Board issued a [letter](#) setting out a public comment period regarding the resumption of the following six regulatory processes pertaining to the TMEP. The Board described the status of each process and a proposed approach to resuming it.

- A** Condition compliance
- B** Detailed route approval (including Plan, Profile and Book of Reference [PPBoR] orders and substituted service orders)
- C** Routing variances
- D** Non-routing variances or design changes
- E** Right of entry
- F** Orders for temporary access

In your comments, you may address whichever process(es) you choose. This form is intended to help focus your comments, but you are not required to use it. If using a different format, the Board asks that you reference **File OF-Fac-Oil-T260-2013-03 60**, make it clear which process(es) you are addressing, and that you separate your comments accordingly.

Any legal arguments should be attached in a separate document(s) and should include relevant precedent or authority.

Please see the Board's letter for more information and guidance.
