Dear Mark Guillet:

**Canada Energy Regulator Emergency Management Audit of  
Many Islands Pipe Lines (Canada) Limited  
Audit Close-out Letter**

In accordance with section 103 of the *Canadian Energy Regulator Act*, the Canada Energy Regulator (**CER**) conducted a compliance audit of Many Islands Pipe Lines (Canada) Limited (**the auditee**). The focus of the audit was on Emergency Management. The objectives of the audit were:

- Hazard identification;
- Risk assessment;
- Identification and delegation of roles and responsibilities;
- Communication of hazards and risks and emergency response procedures to those who need to be aware;
- Contingency planning; and
- The management of documentation.

The CER issued its Final Audit Report to the auditee on 7 October 2024, and the auditee filed a Corrective and Preventive Action (**CAPA**) Plan with the CER on 7 November 2024. The intent of the CAPA Plan was to address the non-compliance(s) identified in the Final Audit Report.

The CER has monitored the implementation of this CAPA Plan via **implementation assessment meeting(s)** and document reviews. The auditee has demonstrated that it has completed the implementation of this CAPA Plan.

The CER now considers this audit to be closed. Note the auditee is accountable for maintaining compliance throughout the life cycle of its regulated facilities. The CER will verify ongoing compliance through future compliance verification activities.
